

La symphonie des étoiles

eTwinning project

“La symphonie des étoiles” is a transnational eTwinning project developed between January and June 2026, bringing together students and teachers from Portugal, Italy (founders), France, Poland, and Romania (members).

Inspired by the founding ideals of the European Union and the metaphor of a musical symphony, the project invites students to explore Europe’s past, understand its present and imagine its future.

OVERTURE
Students introduce themselves

Colegiul Economic “Mihail Kogălniceanu” Focșani, Romania

La symphonie des étoiles

The main objectives of the project are to:

- Develop students' historical awareness of life in European countries before joining the European Union.
- Promote reflection on European values such as democracy, peace, solidarity, inclusion and human rights.
- Foster intercultural dialogue and collaboration through transnational teamwork.
- Improve students' communication skills in English in authentic contexts.
- Enhance digital literacy through the creation of multimedia products.
- Encourage active citizenship by engaging students in discussions about Europe's future challenges.
- Support creativity and self-expression through artistic and musical activities.
